

2008-2009

September 15 – October 13. Backyard Biologists. You don't have to go on a scientific expedition to explore the natural world; there are wonders enough in your own backyard. Join us as we learn to investigate and protect the microenvironments all around us. This session is being developed in cooperation with the Wintergreen Nature Foundation.

October 27-December 8. A Musical Montague. Children will experience a variety of encounters with music through instrument making projects and performances and classes with guest artists: Kim and Jimbo Cary, Pete Vigour, Mike Dunn and others.

No session on November 3.

January 26- March 16. Unpacking Drama. In a session developed by drama therapist and McGuffey artist Mecca Burns, we will "unpack" a different folktale or fable each week using props, costumes, and dramatic activities.

No sessions February 16 or March 9.

March 20 – May 4. A Downtown Samper. Ride the trolley from our office to the Downtown Mall and enjoy a different activity each week. Past activities have included visits to McGuffey Art Center, the Charlottesville Ice Park, Live Arts, The Virginia Discovery Museum, and Olde Michie Theatre. Check in the spring for this year's line-up.
